Inflatable Products

Product / Application	BIS (IS)	ISO	ASTM	DIN	Other Standards
Inflatable Boat	IS 15466 (Inflatable Craft Applications)	ISO 6185-1; ISO 6185-2; ISO 6185-3 (Inflatable Boats)	ASTM F1073 (Standard Specification for Inflatable Boats, where applicable); ASTM D751 (Coated Fabrics); ASTM D412 (Tensile Properties of Rubber and Thermoplastic Elastomers); ASTM D2136 (Low Temperature Bend Test of Coated Fabrics)	DIN EN ISO 6185-1 (Inflatable Boats — Requirements and Tests); DIN EN ISO 6185-2 (Boats with Maximum Motor Power Ratings); DIN EN ISO 1421 (Coated Fabric Tensile Strength); DIN EN ISO 2411 (Adhesion of Coating)	USCG Requirements for Recreational/Commercial Inflatable Boats; IMO Maritime Safety Requirements; CE Marine Equipment Requirements (where applicable)
Rescue Raft	IS 15466 (Inflatable Craft Applications); IS 15883 (Life-saving Appliances, where applicable)	ISO 9650-1 (Small Craft — Inflatable Liferafts — Part 1: Type I); ISO 9650-2 (Part 2: Type II)	ASTM F1740 (Standard Guide for Inspection of Inflatable Rescue Boats, where applicable); ASTM D751 (Coated Fabrics); ASTM D5034 (Breaking Strength of Textile Fabrics); ASTM D2136 (Low Temperature Bend Test)	DIN EN ISO 9650-1 (Inflatable Liferafts — Offshore/Long Distance Requirements); DIN EN ISO 6185 (Inflatable Boats Requirements); DIN EN ISO 1421 (Coated Fabrics Tensile Properties); DIN EN ISO 4674-1 (Tear Resistance)	SOLAS (Safety of Life at Sea); IMO Life-Saving Appliance Code (LSA Code); USCG Approval Requirements
Air Cushion	IS 17399 (Protective Packaging Applications); IS 15466 (Inflatable Products Applications, where applicable)	ISO 10846-1 (Acoustics and Vibration — Laboratory Measurement of Vibro-acoustic Transfer Properties of Resilient Elements), where applicable	ASTM D3574 (Flexible Cellular Materials — Standard Test Methods); ASTM D3575 (Flexible Cellular Materials); ASTM D412 (Tensile Properties of Rubber and Thermoplastic Elastomers); ASTM D2240 (Durometer Hardness)	DIN EN ISO 845 (Cellular Materials — Apparent Density); DIN EN ISO 1798 (Tensile Strength and Elongation); DIN ISO 815-1 (Compression Set); DIN ISO 188 (Ageing Resistance)	CertiPUR-US (Foam Applications, where applicable); GREENGUARD Gold Certification; Consumer Product Safety Requirements
Pneumatic Fender	IS 14287:1995	ISO 17357-1 (High-pressure Floating Pneumatic Rubber Fenders — General Requirements); ISO 17357-2 (Performance Requirements)	ASTM F2192 (Standard Specification for Pneumatic Rubber Fenders); ASTM D2000 (Rubber Products Classification System); ASTM D412 (Tensile Properties of Rubber); ASTM D471 (Effect of Liquids on Rubber)	DIN ISO 17357-1 (High Pressure Floating Pneumatic Rubber Fenders); DIN ISO 37 (Tensile Properties); DIN ISO 188 (Ageing Resistance); DIN ISO 1817 (Resistance to Fluids)	PIANC Guidelines (Ship and Berthing Systems); OCIMF Recommendations (Marine Terminals); Marine Fender Manufacturers Association Guidelines
